Eucalyptus

管理介面簡介

國網中心-格網技術組
Rock(郭文傑), Rider(涂哲原)
rock@nchc.org.tw, rider@nchc.org.tw

接下來我們會討論到

1. Eucalyptus 的 Web 介面
2. Eucalyptus Web 的控制

First

讓我們先更改 admin 的密碼吧

Credentials   Images   Users   Configuration   Extras

User account Information

Edit Account Information

Change Password

Login: admin

Name:

Email: goldjay1231@gmail.com

Feel free to change the account information (except the login) and the password whenever you want. The cryptographic credentials for the Web services associated with this account, shown below, will not be affected by these changes.

X.509 certificate

Download Certificate

Use this public/private key pair with tools that require X.509 certificates, such as Amazon's EC2 command-line tools.

Query interface

Show keys

Use this pair of strings with tools that utilize the query interface in which requests and parameters are encoded in the URL.

Query ID:

Secret key:

Cloud Registration

Register with

RIGHT SCALE™

Your Eucalyptus cloud can be registered with Rightscale, providing you and your users with an easy-to-use interface to both EC2 and your Eucalyptus cloud. The following two parameters will be necessary for registration:

Cloud URL: http://140.110.138.160:8443/register

Cloud ID: 7e381422-0995-4e89-b04e-5facd6dfba41

Eucalyptus Web 提供的五個管理功能

1. 個人憑證
2. 印象檔管理
3. 使用者管理
4. 環境配置
5. 額外
